

The closest that my search brought me to chalked "cartoons of Jews hanging from nooses" was the following photograph that was accompanied by the caption shown below it:

German soldiers on the way to Poland. The inscription on the railway car reads: "We are going to Poland to strike at the Jews." On the left, an antisemitic drawing of a Jew.

However, from the several discrepancies, it is apparent that the above is not the scene which you describe in your *Tryzub and Swastika Speech*.

As I am interested in publishing the truth about the Galicia Division, I renew my offer of instant and full publication which I have previously extended in my letter to you of 09Oct99 with respect to four other documents in your possession. In the present case, I ask you to send me a photograph of Galicia Division recruits boarding a train on which are chalked "cartoons of Jews hanging from nooses," and I will post this photograph on the Ukrainian Archive the same day.

In the event of your neglecting to do so, you may be encouraging speculation that in your *Tryzub and Swastika Speech*, you were describing the photograph immediately above, but to add credibility to your accusations against the Galicia Division, you introduced three misrepresentations: (1) you changed

German soldiers to Galicia Division recruits, (2) you introduced nooses, and (3) you multiplied the number of images of Jews from one to several.
